

MAISON EMMANUEL and the INSTITUT RUDOLF STEINER AU QUÉBEC
invite you to meet **JAIMEN MCMILLAN** on November 26 & 27, 2010
for a lecture-workshop :

Movement and Spacial Dynamics®

IN CARE RELATIONS AND EDUCATION

Parents, teachers and care givers too often feel exhausted, empty, even angry and at a loss. We frequently speak of “burn-out”. Old forms of social interaction no longer work. In this participatory workshop we will learn simple yet effective movements to truly meet those we are trying to serve.

We will create vibrant spaces where safe and healthy interactions can take place. We will explore effective and enlivening dynamics of teaching, parenting and care giving.

**Come learn how to BURN BRIGHT,
while avoiding BURN OUT !**

* The lecture will be in English, with French translation.

Jaimen McMillan, R.S.M.T.

Jaimen McMillan has developed the discipline of *Spacial Dynamics®*, and incorporated it into the curriculums of international movement training centers.

Founder and director of the Spacial Dynamics Institute Inc., he has trained hundreds of students as movement specialists.
